

Solution Features

As an online solution you will always benefit from new features as they're released. We've listed out the launch features that are available now. The development plan for the first year of GemaPark already has a range of additional exciting features scheduled for inclusion, designed to ensure GemaPark helps to nurture your business and save money at every opportunity.

- Deposits and payments go straight into the Park's bank account.
 - Price includes 24/7 maintenance of central server.
 - Scheduling wall-chart projection.
 - Different levels of access for users with different roles.
 - GemaPark manages bookings considering all your defined requirements.
 - Manages bookings between similar units to ensure maximum occupation.
 - Wide range of reports on every aspect of the business, including daily arrivals and departure lists, with special requirements comments from the booking.
 - Easy to use tariff set up screens. These can be amended by Park
- Management with appropriate permissions.
 - If you're fully booked the system will offer customers alternative availability.
 - Section for Park Rules is available for you to complete and plug into your website.
 - A range of access levels are preset, to suit different park roles, to ensure security of your data.
 - Automatic email reminders to unpaid accounts to chase balance payment.
 - Can provide email newsletter functionality to all clients, including what's on, vouchers, offers, monthly newsletters etc.
 - Daily list of balances more than one week overdue.
